

Farzad Mohammadi

[Website](#) | [Email](#) | [LinkedIn](#) | [GitHub](#)

Research Interests	Performance Predictability for Distributed Systems Microservice resource management, scheduling, and load balancing	
Education	Ph.D. in Computer Science Department of Computing Imperial College London, UK Advisor: Marios Kogias (Large Scale Data & Systems Group)	Oct 2024–Present
	M.Sc. in Communication Networks Electrical and Computer Engineering Department University of Tehran, Iran GPA: 19.47/20 (Ranked 1st out of 32 students)	Sep 2021–Sep 2024
	B.Sc. in Electrical Engineering Electrical Engineering Department K. N. Toosi University of Technology, Iran GPA: 18.98/20 (Ranked 2nd out of 126 students)	Sep 2017–Sep 2021
Publications	Roshanfer: Achieving Performance Resilience in Cloud Microservices Farzad Mohammadi , Theo Akande, Marios Kogias EuroSys 2027	
Experience	Sina Communication System, Iran DevOps Intern Worked on performance debugging and automated testing for microservices	Jul 2021–Jun 2022
	K. N. Toosi University of Technology, Iran Software Engineer Backend developer for web-based network planning software	Jul 2019–Jul 2021
Services	Student Mentorship Theo Akande (MSc Imperial 2026) Worked on formal verification of Roshanfer	

Teaching Assistant

Operating Systems 2025,2026

Computer Networks and Distributed Systems 2025,2026

System Performance Engineering 2025,2026

Networks and Communications 2022,2025,2026

Engineering Electromagnetics 2019,2020

Artifact Evaluation Committee

ATC'25

Conference/Workshop Volunteer

VLDB'25, NTU-Imperial Beyond-Binary Hackathon'25

Awards

Full Doctoral Scholarship Award

2024-2028

Admission to the Talented Students M.Sc. Program

2021

Dean's List

2019, 2020, 2021

Skills**Programming**

C/C++, Go, Python, Java, Bash

Languages

English (Fluent), Persian (Native)
