

Farzad Mohammadi

Website | Email | LinkedIn | GitHub

Research	Performance Predictability for Distributed Systems
Interests	Microservice resource management, scheduling, and load balancing

Education	Ph.D. in Computer Science	Oct 2024–Present
	Department of Computing	
	Imperial College London, UK	
	Advisor: Marios Kogias (Large Scale Data & Systems Group)	

M.Sc. in Communication Networks Sep 2021–Sep 2024
 Electrical and Computer Engineering Department
 University of Tehran, Iran
 Advisor: [Vahid Shah-mansouri](#)
 Thesis: Digital Twin-Assisted Network Orchestration in
 Multi-Cloud Networks ([code](#), [preprint](#))
 GPA: 19.47/20 (Ranked 1st out of 32 students)

B.Sc. in Electrical Engineering Sep 2017–Sep 2021
 Electrical Engineering Department
 K. N. Toosi University of Technology, Iran
 GPA: 18.98/20 (Ranked *2nd* out of 126 students)

Publications Roshanfer: Achieving Performance Resilience in Cloud
Microservices
Farzad Mohammadi, Theo Akande, Marios Kogias
EuroSys 2027

Experience	Sina Communication System, Iran	Jul 2021–Jun 2022
	DevOps Intern	
	Worked on performance debugging and automated testing for microservices	

K. N. Toosi University of Technology, Iran Jul 2019–Jul 2021
 Software Engineer
 Backend developer for web-based network planning software

Services	Student Mentorship
	Theo Akande (MSc Imperial 2026)
	Worked on formal verification of Boshanfer

Teaching Assistant

Operating Systems 2025,2026

Computer Networks and Distributed Systems 2025,2026

System Performance Engineering 2025,2026

Networks and Communications 2022,2025,2026

Engineering Electromagnetics 2019,2020

Artifact Evaluation Committee

ATC'25

Conference/Workshop Volunteer

VLDB'25, NTU-Imperial Beyond-Binary Hackathon'25

Awards

Full Doctoral Scholarship Award

2024-2028

Admission to the Talented Students M.Sc. Program

2021

Dean's List

2019, 2020, 2021

Skills**Programming**

C/C++, Go, Python, Java, Bash

Languages

English (Fluent), Persian (Native)
